

Construction Club Week 2 – Our Interests

Session Objectives – Explore our interests.

STEM Activity – 10 Minutes

Strongest Tower activity

- Using recycled paper build the strongest tower possible that will need to support as many books as possible
- The group who's tower can hold the most books at the end of the 10 mins wins

Main Activity – 30 Minutes

Our Interests – 30 Minutes

Discuss with the children all their different interests.

Working in pairs the children must make a design from both the children's interests.

If there is time remaining get the children to swap interests with another group and make something different.

Explain that having different interests are things that make us different.

Show and Tell – 10 Minutes

Get children into a circle and discuss what was built today and let the children show their build to the rest of the class.

Award a certificate.

Dismiss children from designated area.
