

## Construction Club Week 4 – Under the Sea

### Session Objectives –

#### STEM Activity – 15 Minutes

- Using paper, ask children to build paper planes.
- Children can work in teams.
- Let everyone have a turn flying their plane.
- Paper plane to fly the furthest wins.

### Main Activity – 30 Minutes

#### Under the Sea – 20 Minutes

Discuss with the children what they would be able to build.

Working individually, the children can build their own Under the Sea themed item. Ask the children to all make different things.

#### Atlantis – 10 Minutes

Using all the designs put together the Underwater Kingdom called Atlantis

Think about coral reefs, fish, sunken ships, submarines etc.

Create a story around Atlantis

### Set down – 10 Minutes

Get children into a circle and discuss what was built today and let the children show their build to the rest of the class.

Award a certificate.

Dismiss children from designated area.
